STAT

Deputy Chief, Logistics Services Division, OL

SUBJECT:

Quality of Life - Painting in the Exercise Room, Locker Rooms and Running Track

1. The painting of the exercise room is scheduled to begin on 21 November 1983. This painting should take two to three days to accomplish.

2. After this facility is completed, the painters will then go on to the two locker rooms, then the hallway area between the two locker rooms, and finally on to the running track area itself.

3. While all of this painting is going on, different portions of the facility will of necessity be closed; which we are sure will upset some of the users of this facility. Signs have been posted announcing this activity in the entrance to the facility.
